I am a writer working on my own personal blog through Patreon. I am applying my user-experience design skills to create and promote my work through social media. I consider my brand, my audience, and my own passion for writing when creating my work.

EXPERIENCE

JULY 2020 - PRESENT

BLOGGER, PATREON

Launched a personal blog after working on creating content and developing my brand over the last year. I promote my work using social media platforms such as Instagram and Reddit.

MAY 2020

PANELIST, WP PUPPET POWER CONFERENCE

Invited panelist for AI, Puppets and All Things Uncanny Panel. I discussed my experience with projects using puppets and technology.

EDUCATION

NOVEMBER 2019

MASTER OF SCIENCE, UNIVERSITY OF CALGARY

Field of Study: Computational Media Design

Studied human-computer interaction and theatre design. My thesis research explored how to design technology for improvisers. I focused on usability and used an empirical approach of analyzing data from observations and interviews.

GPA: 4.0

NOVEMBER 2017

BACHELOR OF SCIENCE, UNIVERSITY OF CALGARY

Field of Study: Computer Science

Earned a concentration in computer graphics, which led to my interest in human-computer interaction. I also earned a minor in visual studies and art history.

GPA: 3.5
