

Claire Mikalauskas (she/they)

Researching and communicating the unique wants and needs of people brings me joy! I meet people where they're at and value learning about people's different lived experiences.

EXPERIENCE

SAIT — *Digital Designer*

September 2021 - April 2022 | Permanent Full-time | Hybrid

- Condensing complex information about research, results, and continued project progress into designed storytelling templates
- Collaborating with team and industry partners to design advanced digital technology experiences for people of any skill level across multiple fields

Iteration Insights — *Communications Coordinator*

April 2021 - August 2021 | Contract Full-time | Remote

- Collaborating with marketing coordinator and analytics consultants to plan, create, and publish media and copy about complex topics in a simple format for multiple audiences
- Promoting inclusion and accessibility in how the company creates and delivers content for both customers and employees

EDUCATION

University of Calgary — *Masters of Science in Computational Media Design*

2017 - 2019

- Published and presented UX research internationally at computer science conferences and a theatre conference
- Worked as a teaching assistant and taught 50 third year computer science students the fundamentals of human-computer interaction, focusing on design basics and professional writing
- Worked as a project advisor guiding 3 fourth year computer science students through semester-long research projects
